# DO IT YOURSELF

Do your part for the environment when you choose to reuse and recycle your old belongings. Instead of throwing away used materials, consider the benefits of repurposing these objects. Turn them into practical, functional, one-of-a-kind creations that will help you save both your money and the environment. Here are some cost-effective ideas to get you started:

**Put your broken picture frame to good use when you repurpose it into a stylish earring holder.**

- Picture frame • Picture wire
- Nails or a staple gun
- Acrylic paint and paint brush

1. Paint picture frame in the colour of your choice. Leave to dry.
2. Measure wire against the frame's width and cut wire accordingly.
3. Twist strands of wire together so you can dangle your earrings securely.
4. Rope wires across the back of the frame.
5. Staple wires to the back of the frame, leaving sufficient space between each layer to hang your earrings.
6. Fold and tuck wires in neatly.
7. Use nails or tacks as alternatives if you do not have a staple gun.

EARRING HOLDER

## VINTAGE SHELVES

**Transform your old books into vintage-inspired shelves for a budget-friendly home makeover.**

- Large hardcover books
- 3 pairs of large L-brackets
- 3 pieces of small L-brackets
- Screws and a screwdriver

1. Measure the thickness of each book and mark preferred placement on wall.
2. Drill pair of large L-brackets at the bottom of your measurement and a small L-bracket at the top.
3. Slide each book in between top and bottom brackets.
4. Place lightweight, decorative objects on your new shelves.

## CUTLERY CADDY

**Recycle empty cans by cleaning them out and turning them into a functional cutlery caddy.**

- 6 empty tin cans
- Sandpaper
- Block of 150mm x 250mm thin wood
- Enamel paint
- Wire nails and hammer
- 16mm screws and screw cups
- Pieces of cloth, plastic or paper for labels

1. Use sandpaper to smooth out the cans' sharp edges.
2. Paint the cans and block of thin wood. Leave to dry overnight.
3. Hammer holes into the tops of your cans with a hammer and wire nails.
4. Screw cans to the block of wood.
5. Attach a leather strap to the top of the block with screws and decorative screw cups.
6. Label cans with cloth, plastic or paper.
